- The improvement of adult education methods, overcoming the eventual digital

divides in an IT based participatory approach

- The enhancement of adult learning effectiveness, removing the impact of negative factors into adult learning groups
- To attract adult people to training system in order to reduce the level of low qualification
- To improve a type of training more appropriated to respond to the current labour market challenges (expulsion from the labour market, new jobs, new skills to be reemployed)

## O1- METHODOLOGY DEFINITION

The Output has been successfully achieved thanks the involvement of all partners. The Project Management Team identify a shared area of investigation: adult / elderly learning methodologies, in particular the participatory learning approach

**RTA and INBIE suggested the tools and strategies for the research activities**

## FIRST COORDINATION MEETING

19-21 October 2015

[IAL nazionale srl Impresa sociale]

The organization of the first meeting was professionally planned and before the meeting the partners had a lot of information about the tasks to be discussed during the meeting. As it was the first time we were going to meet face to face all partners, the pre-atmosphere was nervous, but turned out to be an excellent group, with a lot of common expectations and different experiences to share.

### Topics

- Welcome and Presentation of the Partners
- Presentation of the work plan
- Definition of roles for each Partner –
- Roundtable and validation of the work plan and roles
- Coordination and monitoring
- Project management tools for the financial management and state of progress of the activities

## SECOND COORDINATION MEETING

18-19 April 2016

[Centre for Educational Policy Development]

The organization of the second meeting was a success because all activities planned for the first part of the project was successfully implemented. The meeting was smoothly because we had a good communication plan during the first output implementation. We had a roundtable about the work developed for the research phase (difficulties, impressions, opinions...), presentation of the research results and reports, *coordination and monitoring*, tools and new platforms for the monitoring, dissemination and state of progress of the activities and interim report

**Planning of following steps, tasks distribution and tools**

Second number will be available at the end of July follow us: <http://www.escalade.inbie.pl>
